Experience

Senior Product Designer • Develux

Nov 2023 – Jul 2024

Collaborated on a platform for freelance writers, conducting research, worked with analytics, redesigning the interface, and testing solutions with end users.

Senior Product Designer • Rallyware

Jul 2023 – Oct 2023

Joined the Product Design team, focusing on enhancing customer experience, contributing to the design system, and improving overall visual appeal.

Experience Designer • EPAM

Feb 2022 – Jul 2023

Led a team in developing an innovation portal from the ground up. Played a key role in the discovery phase and conducted usability testing to optimize the user experience.

UI / UX Designer • AgileFuel

Dec 2020 – Dec 2021

Created adaptive websites and iOS apps, conducted audience analysis, and collaborated with developers. Rebuilt the app to boost average order value and created tools for 3D model management.

UI / UX Designer • Freelance / Individual

Jan 2018 – Dec 2020

Working on various of projects, my experience includes leading small teams, creating mobile apps and websites, handling audience analysis, user testing, UI kits, design systems, and creation of the interactive prototypes.
